Profile

Software Engineer with 4+ years of experience delivering production web applications across industrial operations and SaaS. Strong in React, Next.js, and TypeScript, with experience establishing frontend architecture, shipping multi-tenant products, and integrating LLM APIs into business workflows. Currently contributing to analytics tooling at Fusion AI while developing AI-assisted capabilities in an independent SaaS product.

Experience

ABA Technology — Remote, Morocco
Full-Stack Engineer — September 2024 – Present

Fusion AI | **Analytics Studio** — November 2026 – Present

- Built interactive D3 widgets to extend Analytics Studio's native dashboard visualizations.
- Integrated custom widgets into the studio's plugin architecture using typed configuration, manifest metadata, and Module Federation, enabling dashboard query results to feed the visualizations.

Tech: React, TypeScript, D3, Vite, Module Federation

Connected Workers (Hardiot) | **Frontend Engineer to Frontend Lead** — September 2024 – November 2026
Industrial operations platform used in Morocco and at international sites.

- Established the Next.js frontend foundation, page templates, and shared components for operator, maintenance, and energy-monitoring workflows.
- Built a React Flow workflow editor with approval, document, and notification nodes; delivered dynamic forms, REST API integrations, and authentication flows.
- Shipped operator and team-leader features for shift operations, visual checks, time tracking, replacements, and skills management.
- Led code reviews and developer mentoring; introduced ESLint and Jest practices while collaborating with backend, QA, product, and design teams.

Tech: Next.js, React, TypeScript, Zustand, TanStack Query, React Flow, React Hook Form, Zod, Jest

ConstruFlow | **Independent Construction SaaS** — April 2026 – Present
Full-Stack Engineer | Independent product developed alongside full-time employment

- Built and shipped a production multi-tenant SaaS for construction operations, covering project tracking, quotations, invoices, suppliers, subcontractors, attendance, expenses, and financial dashboards.
- Implemented a Claude API-powered Excel import workflow that maps varied spreadsheet columns to the product's data model, with user review and approval before import.
- Implemented tenant-level data isolation using PostgreSQL Row Level Security (RLS) and permissions; delivered English, French, and Arabic interfaces with RTL support.

Tech: Next.js, TypeScript, Supabase, PostgreSQL, Row Level Security, Claude API

InsureBT — Casablanca, Morocco
Frontend Engineer — April 2023 – September 2024

- Contributed to migrating an enterprise insurance application from React to Next.js, including routing and application structure.
- Maintained enterprise insurance workflows with backend and QA teams; fixed selected bugs in Java/Spring Boot backend services.

Tech: React, Next.js, TypeScript, Redux, MUI, Java/Spring Boot (bug fixes)

Earlier experience

Botticelli Web | Freelance Full-Stack Developer (Feb–Apr 2023) | React, React Native, Laravel/MySQL
Pull4YOU Services | Freelance Full-Stack Developer (Aug 2022–Feb 2023) | React, Redux, REST APIs
Hirschmann Automotive | Software Development Intern (Mar–Aug 2022) | Flutter, Firebase

Technical Skills

Frontend & Visualization: React, Next.js (App Router), TypeScript, JavaScript (ES6+), Tailwind CSS, shadcn/ui, MUI, D3, React Flow, Zustand, Redux, TanStack Query, React Hook Form, Zod
Backend & Data: Supabase, PostgreSQL, Row Level Security, REST APIs, Laravel, MySQL, Java/Spring Boot (maintenance)
AI Integration: Claude API, LLM-assisted schema mapping, prompt-based data mapping
Engineering & Tools: Frontend architecture, design systems, reusable components, SSR/CSR, Module Federation, performance optimization, Jest, ESLint, Prettier, Husky, Git, GitHub, GitLab, Jira, Agile/Scrum

Education & Languages

EMSI, Rabat | Engineering Diploma, Automation and Computer Engineering (2022)
Institute of Applied Technology, Tangier | Technical Degree, Electromechanical Automated Systems (2019)
Languages: Arabic (native), English (full professional), French (full professional)
